EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dave Bellenbach on January 28, 2008.

The application has been amended as follows:

In claim 23, in the first line "22" has been deleted and replaced with ---21---.

In claim 24, in the first line "22" has been deleted and replaced with ---21---.

The following is an examiner's statement of reasons for allowance: The Applicant discloses a treadmill having a console which automatically adjusts its height as a user steps onto the treadmill. Some embodiments sense the location or height of a user feature and adjust the console accordingly and others sense the height of a user and adjust the console accordingly. Allowance is deemed proper because of the automatically adjusting console. Nowhere in the prior art is found a treadmill which automatically adjusts its console and changes the height of its console based on the feature or trait of a user after they step onto the treadmill. Since the console is linked to the frame but independently movable from the frame, the console can move up and down along guides relative to the treadbase according to a users height or location of a

feature on a user. This automatic adjustment of the console, independent of treadbase movement, based on the height or location of a user, is novel and directs Applicant's invention towards patentable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Supervisory Patent Examiner LoAn H. Thanh whose telephone number is (571) 272-4966. The examiner can normally be reached on Mon. - Fri. (First Friday off).

The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
